Danish cuisine

If you like food, you'll love Denmark. The country is renowned for its fantastic, innovative cuisine. It offers everything from simple and delicious open-faced sandwiches to Michelin-starred restaurants and proud, world-class chefs. Copenhagen also happens to be home to the world's best restaurant, noma.

New Nordic food

Slow food over fast food, with green solutions and the use of local produce over food shipped from countries halfway around the world - that's the essence of New Nordic cuisine, a sustainable, healthy and delicious new trend that has taken Scandinavia by storm. It's about experimenting and presenting exciting new ways of combining traditional ingredients.

IMAGINATION for foodies

Experience an extensive display of all that Nordic cuisine has to offer at our Danish food focus at St Katharine Docks. At IMAGINATION, a variety of delicious New Nordic food tastings will be available for free throughout the three weeks.
